EDUCATION

Indira Gandhi National Open University

New Delhi

Bachelor in computer application in computer Science

july. 2022 - August 2025

Kendriya Vidyalaya

New-Delhi

Graduation Date:

2022

EXPERIENCE

Skyscanner Front-End Software Engineering virtual experience

January 2025 – Present

Link

Programme on Forage

- Completed a job simulation where I built a web application using React as a front-end engineer at Skyscanner.
- Developed a page for picking a travel date using Skyscanner's open-source Backpack React library.
- Customised my application and ran automated tests to ensure it rendered properly.

AWS APAC Solutions Architecture virtual experience

January 2025– Present

Program on Forage

Link

- Designed a simple and scalable hosting architecture based on Elastic Beanstalk for a client experiencing significant growth and slow response times.
- Described my proposed architecture in plain language ensuring my client understood how it works and how costs will be calculated for it.

Web Developer Intern

July 2024 – Present

- Secured a Web Developer internship through Internshala at Systemic Altruism.
- Developed a game in Java to test the generated dungeons
- Gained hands-on experience in web development, collaborating on real-world projects.
- Applied front-end and back-end development skills to create responsive and scalable solutions.
- Worked on enhancing user experience and optimizing web application performance.
- Worked closely with designers and backend developers to create seamless user experiences.

Projects

Interior Design Website Project: | React, Tailwind.CSS, ,CSS, JavaScript

 $June\ 2024-Present$

- A comprehensive library of furniture and decor items for users to choose from.
- Deployed the application on Vercel for seamless access and performance optimization.
- Real-time rendering of room designs to provide immediate visual feedback.

Geek Quiz WebApp | JavaScript ES6+,React.js,Node.js with Express.js,MongoDB

October 2024–Present

- User Authentication: Implemented a secure login and registration system to ensure user data privacy and personalized experiences.
- Dynamic Quizzes: Integrated with external APIs to fetch quizzes dynamically, offering a diverse range of topics and questions.
- Real-time Results: Provided instant feedback upon quiz completion, enhancing user engagement and learning.
- Responsive Design: Ensured the application is optimized for both desktop and mobile devices, providing a seamless user experience across platforms.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, Frameworks: React, Node.js, WordPress, Material-UI, FastAPI

Developer Tools: Git, TravisCI, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib
